Introduction

Bharat is an agricultural dominant country, agriculture cannot be avoided even in the pursuit of mechanical superiority, cow protection and cow development are indispensable for the physical-intellectual-social-natural well-being of modern human. For Indians, cow has religious and social importance in our life, it is our responsibility to protect the cow that makes the cow healthy.

'Shreemajjagadguru Shankaracharya' 'Shree Shreemad Gangadharendra Saraswati Mahaswameeji' of 'Shree Sonda Swarnavalli Mahasansthanam' has already engaged in many social dynamic activities. He has been a pioneer of social reform by undertaking constructive work through various affiliated organizations for social upliftment. Parampoojya Swameeji has established an organization called Govardhana (R) and started Goshala related activities.

Shree Matha has already purchased 11 acres of land at Karadolli village under Madnur panchayat jurisdiction toward Mundagod from Yellapur. Shree Guruji himself led the Gou-Seva Mahathkarya as an honorary president.

Govardhan Goshala has been serving and protecting cows with devotion and dedication. This institution has been striving to provide food, shelter, medical care, and love to hundreds of cows.

Go Mata - Vishwa Mata

VISION

Our aim is not just to protect cows, but also to create awareness about cow-based farming, organic food, ayurvedic medicines, and the spiritual importance of cows in Indian tradition.

Protect and serve abandoned, injured, and old cows. Spread awareness about the importance of cows in agriculture, health, and spirituality. Develop self-sustained cow-based units for organic farming, bio-fuel, dairy, and medicinal purposes. Preserve Indian cow breeds and their lineage.

PRESENT SITUATION

At present, the number of our livestock is increasing and now we have a nourishing strength up-to 70 cows. However, we are trying to manage 120 cows.

Currently, around 120 cows are being taken care of. Shelter, fodder, and medical facilities are continuously provided. But the old building is no longer sufficient. For the past 13 years, we have been functioning in limited facilities without proper infrastructure.

Further more, we are planning to construct a new shelter with capacity of 500+ cows We look forward to your kind support and encouragement.

FUTURE PLANS

We plan to build a new, modern goushala complex on 11 acres of our goushala land.
